## PROFILE

Motivated and organized Web Developer with 1 year of experience specializing in React.js and Node.js. Skilled in front-end and back-end development, with a strong foundation in HTML, CSS, JavaScript, and various web development tools and libraries. Proven ability to manage multiple priorities with a positive attitude and a willingness to take on additional responsibilities to achieve team goals.

---

## SKILLS

React.js, Node.js, Sql, JavaScript,  
HTML, CSS

Redux Toolkit, Tailwind CSS,  
Bootstrap, JSON Server

Photoshop, Basic knowledge of  
database administration

---

## EXPERIENCE

**Visiontrek Communcation**

**Aug 2023 - Present**

**jr.React Developer**

Enthusiastic and detail-oriented Web Developer with over 1 year of experience specializing in React.js and Node.js. Currently employed at VisionTrek Communication, I excel in creating dynamic and responsive web applications. My expertise spans front-end and back-end development, with a keen eye for design and a commitment to delivering high-quality, user-centric solutions.

---

## PROJECTS

### **To-Do List Application**

- Developed a full-featured To-Do List app with authentication using JSON server.
- Implemented CRUD operations (Create, Read, Update, Delete) to manage user tasks efficiently.

### **Netflix Clone**

- Created a Netflix-like streaming platform utilizing the TMDB API for fetching dynamic movie data.
- Integrated state management using Redux Toolkit for a seamless user experience.

### **Video Portal Platform**

- Built a comprehensive video portal application using Node.js and React.js with Redux Toolkit.
- Ensured efficient video handling and playback across the platform.

### **Admin Panel Development**

- Developed robust admin panels using Node.js, React.js, JWT token authentication, and SQL databases.
- Focused on creating secure and scalable administrative features for managing user data and content.

### **AWS S3 Integration**

- Implemented functionality to upload and delete data from AWS S3 buckets using Node.js.
- Ensured secure handling of data with AWS best practices.

### **Responsive Design Implementation**

- Designed and developed fully responsive websites using Tailwind CSS and React.js.
- Optimized for all devices, ensuring a seamless experience on both mobile and large screens.

### **Deployment and Server Management**

- Successfully deployed backend and frontend applications on various servers.
- Managed server configurations, updates, and performance optimizations.

### **SQL Database Operations**

- Worked extensively with SQL databases, crafting queries for both data retrieval (GET) and data manipulation (POST).
- Focused on optimizing database interactions for improved performance.

**JWT Token Authentication**

- Implemented JWT token-based authentication to secure web applications.
- Ensured user sessions and data remained protected against unauthorized access.

**Automated Email Service**

- Developed a Node.js service for automated daily email delivery based on user preferences.
- Integrated scheduling to allow users to receive timely updates as per their desired schedule.

**Telegram Bot Development**

- Created a responsive Telegram bot in Node.js that handles user commands and sends automated responses.
- Utilized the Telegram API for seamless communication between the bot and users.

**Responsive and Aesthetic Web Design**

- Focused on building visually appealing and responsive websites.
- Ensured compatibility and a smooth user experience across all devices, from phones to large screens.

---

**EDUCATION & CERTIFICATIONS**

**Bachelor of Computer Application (BCA)**

Govt Degree College Nagrota Surian, affiliated with  
HPTU Hamirpur  
2020 - 2022

**Netmax Institute**

6-month Web Development Training

**12th Grade**

HP Board, Dharamshala
